Vigilant
TECHNOLOGIES

Cloud & Data Center Migration

- Moving workloads between private, public or hybrid cloud environments
- Expanding & contracting resources
- Accelerating & automating data migrations across cloud environments

Disaster Recovery

- Managing backup, scaling to the cloud and automate necessary functions with geographically separated disaster recovery solution.
- Protecting data from any disruptions to the business operations.

Hybrid Cloud Management

- Maintaining & managing legacy systems
- Rapid deployment, a quick time-to-value, lowering IT expenses while still optimizing application performance.

Case Study

Pepper Construction Group provides general contracting and construction management services. The Company builds corporate headquarters, schools, hospitals, hotels, and factories. Pepper Construction serves customers worldwide.

Industry: Construction

Revenue: \$500M+

Employees: 1000

Datacenter Location(s): Phoenix, AZ & Ashburn, VA

Products: Oracle Cloud Infrastructure, Rackware Servers

Challenges

- Required to Migrate Construction Management software (CMiC) environment to Oracle Cloud Infrastructure (OCI) to reduce on prem Data center hardware & management costs.
- Customer resources doesn't have the necessary documentation for CMiC reinstallation and setups.
- Required to setup Disaster Recovery (DR) environment w/ geographical separation
- Need to reduce operational and improve cost efficiencies with better resilient architectures

Approach

- Vigilant had created and deployed the DR environment with the backups and retention policies on Oracle Cloud Infrastructure.
- For Primary Data Center, Vigilant had leveraged Rackware's server and polices for Production files and Backup including retention policies on Oracle Cloud Infrastructure included.
- For Secondary OCI Data Center (DR), Vigilant, had implemented Rackware server and policies to replicate the binaries.

BUSINESS IMPACT

Completed work on the DR site almost a month before the target for go-Live

Provided technical thought leadership to on OCI Issues for Production

Achieved desired Recovery Time Objective (RTO) and Recovery Point Objective (RPO)

ABOUT RACKWARE

RackWare is a well-established private company supporting customers from the Fortune 500 and large public agencies, around the globe.

RackWare provides an intelligent highly automated Hybrid Cloud Management Platform that extends across physical and virtual environments. It provides greater availability and flexibility for enterprise IT users, and reduced costs for enterprise IT providers. RackWare customers realize a cost savings of 40 to 50 percent, a reduction in time and resources by 20:1, while getting the highest performance and availability out of their cloud.

ABOUT VIGILANT

We are a global technology consulting and digital transformation company, delivering premium advisory, professional, and managed services to enterprises. We also help companies leverage cloud, automation, analytics, and other technologies to transform their businesses.
