

CASE STUDY

Azure Advisory & Consulting Services

Azure (Virtual Networking and SQL) |
Azure Active Directory | Database |
Disaster Recovery

Inogen, headquartered in Goleta, California, and established in 2001, is a leading global medical technology company offering innovative respiratory products for use in the homecare setting. Inogen supports patient respiratory care by developing, manufacturing, and marketing innovative best-in-class portable oxygen concentrators used to deliver supplemental long-term oxygen therapy to patients suffering from chronic respiratory conditions.

Vigilant provided guidance and consultation on setting up and deploying Azure SQL and the necessary Virtual Network components to support the environment from a secure on-premise location.

Vigilant continues to provide consultation and advisory support.

Challenges Resolved

Reduced need for on-premise infrastructure

Cost saving & procedure improvements

Reduced Time to Ramp and Scale

Services Provided
