

OCI CASE STUDY

Lift & Shift to Oracle Cloud

Global EBS Operations with Multiple Localizations

Bissell Inc., also known as Bissell Homecare, is a privately owned vacuum cleaner and floor care product manufacturing corporation headquartered in Walker, Michigan in Greater Grand Rapids. The company is the number one manufacturer of floor care products in North America in terms of sales, with 20% marketshare.

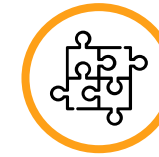

Vigilant provided solution to use ASM storage options to support on-prem EBS migration and created Active Disaster Recovery solution to create EBS environment in cloud with simplified methods using cloud options.

Vigilant provides managed support for all their Oracle Databases on OCI.

Challenges Resolved

Cut down infrastructure cost and improve EBS clone approach runtimes

Cost saving & procedure improvements

Clone Time Reduced by 80%
