Vigilant

BUSINESS CHALLENGE

The company was using internal DBA's to manage their Oracle Databases across the globe. They were challenged with providing 24 X 7 coverage for multiple regions in different time zones. Apart from this, the DBA resources were not available for key project initiatives.

- ➔ Customer was concerned about the safety and security of the data
- ➔ Support during Multiple time zones.
- ➔ In-house DBA's were not able to focus on key initiatives

SOLUTION & APPROACH

Vigilant with their global operations and their very strong suite of remote database services presented the company's strength to win the contract. Vigilant provides a defined SLA and fixed monthly cost, with support hubs in North America, Canada and India. With this infrastructure, Vigilant was able to manage the customer's databases on a 24/7/365 basis across multiple time zones.
