Oracle Cloud Implementation

Vigilant TECHNOLOGIES

Champion Home Builders, is a mobile and modular home manufacturing company building Manufactured Homes, Modular Homes and Park Model RVs. Champion has 42 plants across US and Canada using the legacy system with many corporate manual reporting in place.

Vigilant performed an assessment to determine the current gaps/processes and map them to Oracle Cloud Applications. Laid the foundation by implementing Oracle Cloud Applications for the first plant and strategized to roll-out the same to the remaining plants.

Revenue
$ 5.3 Billion

Deployment Location
Troy, Michigan

Industry
Manufacturing
